We thrive to be your strategic IT partner, expert and a trusted advisor. We use the product approach, care about the business and users. We research, test, launch and develop innovative solutions and services.

Customers

We focus on technologies and combine our expertise and specialization in industries we serve to create highly profitable scenarios for our clients

A full cycle product development team with great field expertise:

- Digital Transformation
- Technology consultancy
- Full product development & analytics
- Business operations and management
- IOS, Android & Web applications developers
- UX/UI design
- Backend development & Integrations
- Support & continuous development

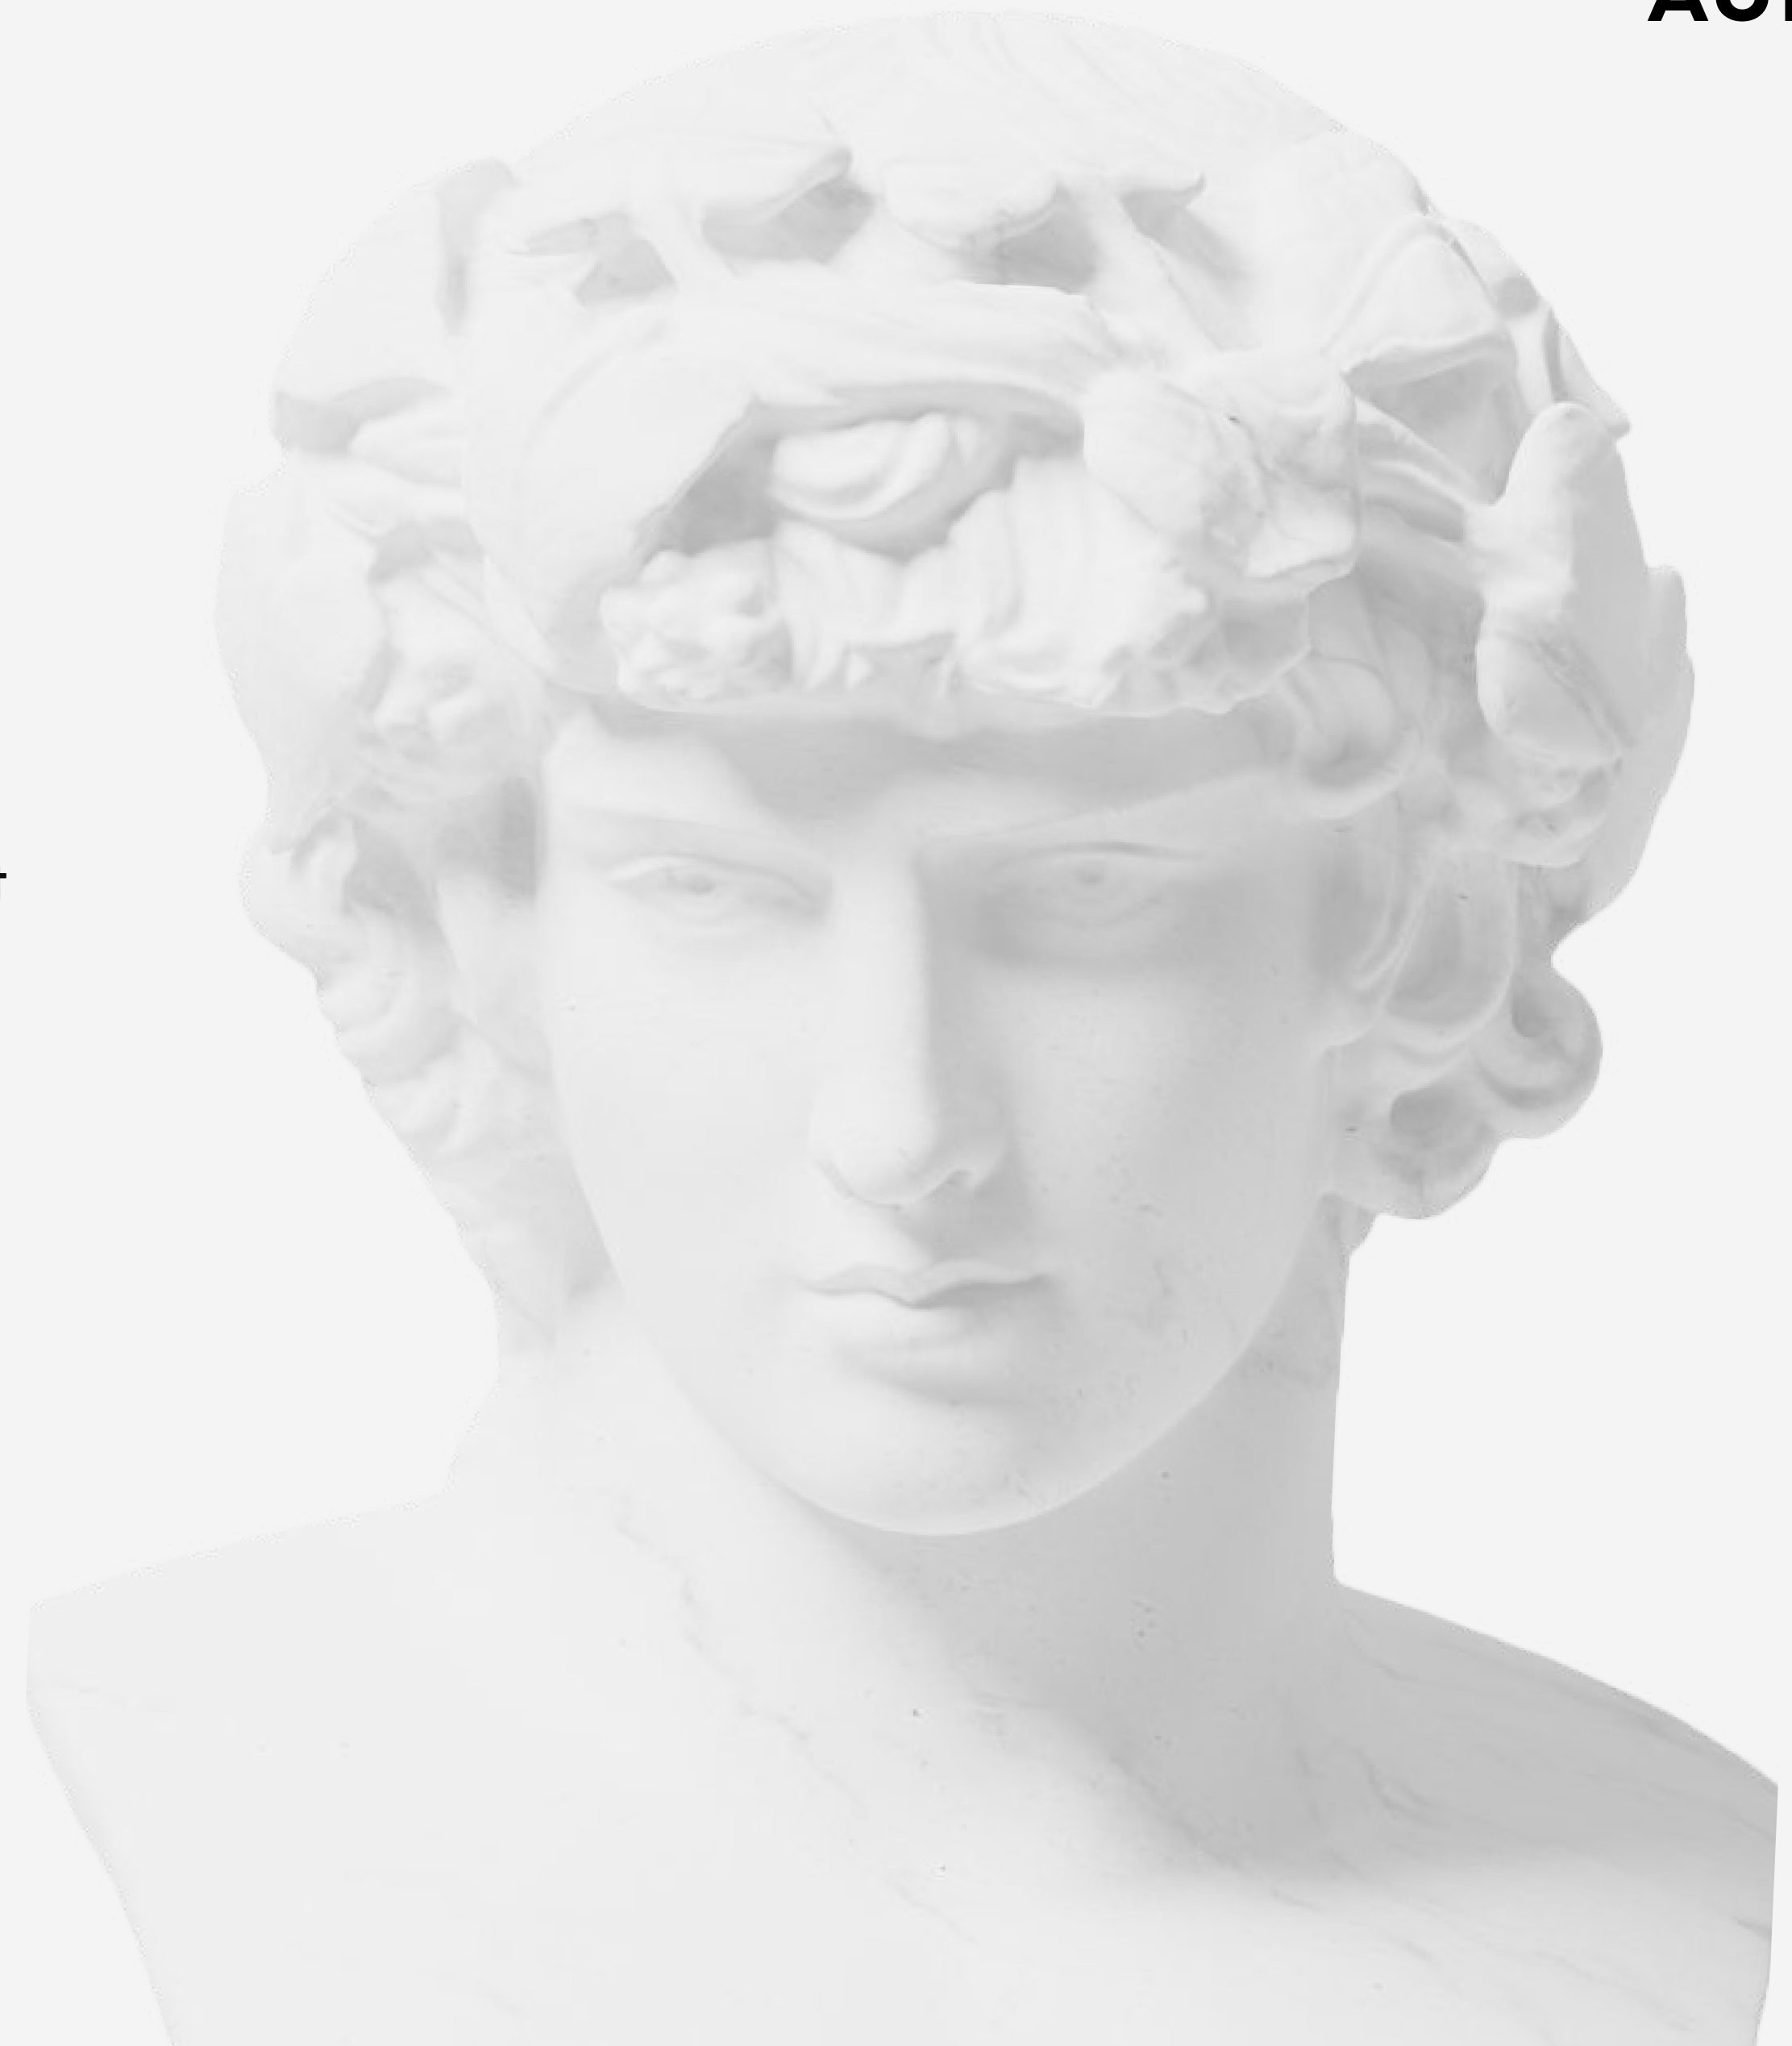

What we bring to the table

- Several years of experience in niche industries E-commerce, Fintech, Foodtech, Automotive, Pharma
- 3 times faster product launch vs industry average
- Q-com projects (average check +30%)
- New business launches Heavy Fair: revenue from 0 to 6 mil \$
- 130+ successful projects BCG group, Mars, Pfizer, Zeppelin, Allergan
- We help passionate founders to launch the product and sell it to the strategic buyer
- Our clients become our partners and friends, average tenure is longer than 2 years
- 30% more cost efficient than an in-house team
- Rapid time to market 1 week sprint for the feature
- Hundreds mistakes we've learnt from to make sure your experience would be smooth and enjoyable

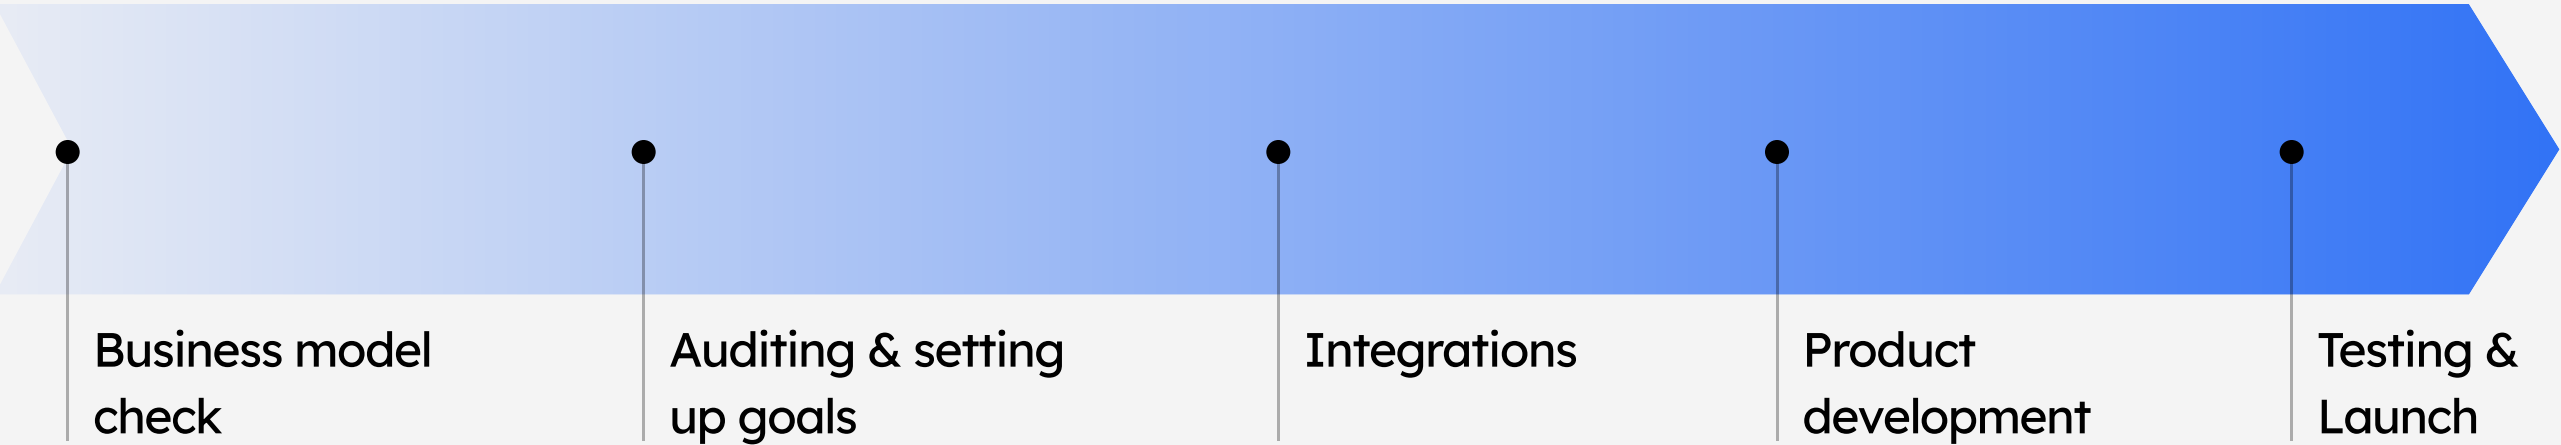

For whom Exactly

AUDAX

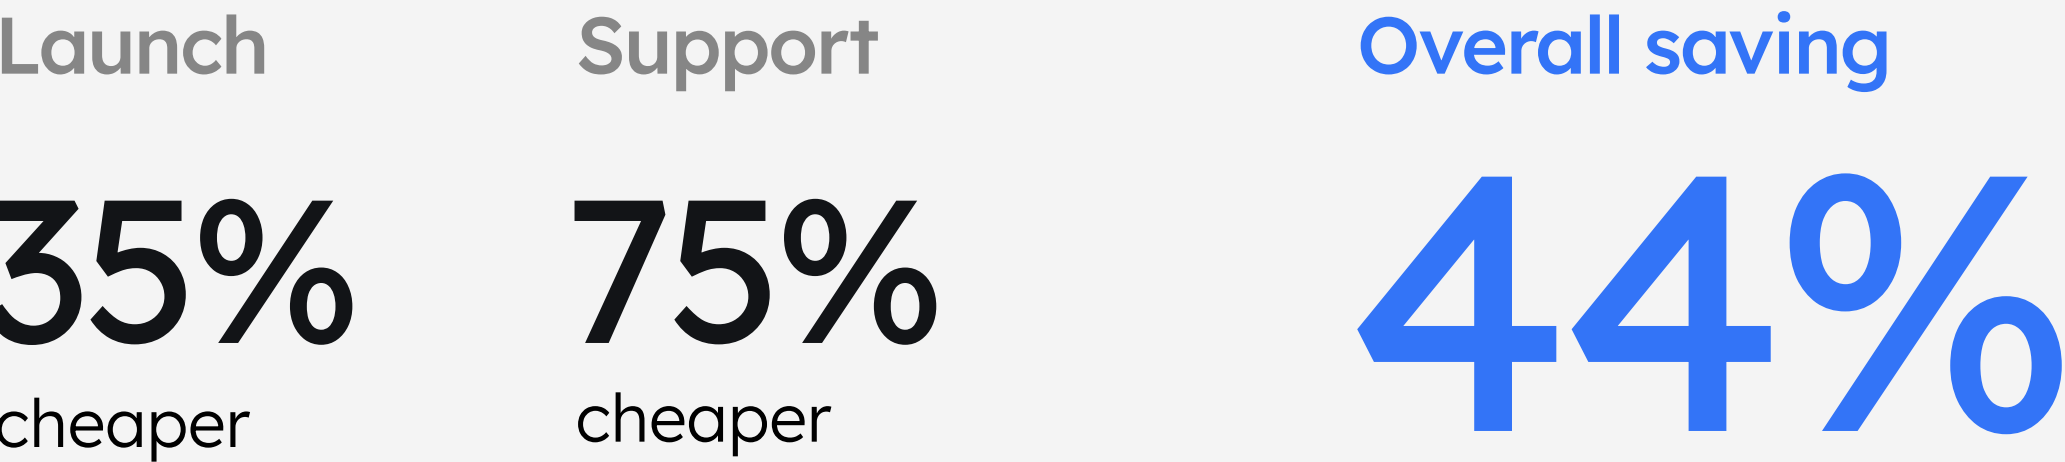

- Those who require support with **collateral** (presentations, brochures design, banners, landing pages etc). Marketing side of thing
- Those who go through **internal digital transformations**. (Eco systems, CRMs, IT integrations etc.)
- Those who go through **complete digital transformation**. Developement and/or redevelopment of “customer facing” products (websites, mobile apps etc), rebranding as well as internal ecosystems.
- **Consulting**. Sometimes questions around digital products lead to other questions. Having expertise and experience in chosen niches give us possibilty to suggest optimal ways for your further development and we are more than happy to share the knowledge.

How

Audax vs In-house team
